IDEAL TREE FOR SMALL APARTMENTS

Apartment dwellers with limited space will welcome the Norfolk Island pine, a natural mini-Christmas tree, that is a charming houseplant all year as well. It requires a little water about twice a week and flourishes in full sun through the winter. Trimmed with tiny ornaments it is lovely, indeed. To keep the branches from sagging, hang the trimmings in a bit from the branch ends.

Hot tips for entertaining

For a holiday buffet, you'll want a way to keep your hot dishes just that way. Electric hot trays are the number one choice because they are usually made to keep foods warm, without drying them up. Small electric cooking appliances are great too. You can cook a dish in one and when ready to set out on the table, you can turn the setting down to "warm." It will hold at serving temperature nicely that way.

There are many attractive tabletop warmers that use canned fuels ... alcohol burners, butane gas burners or candles. Be sure to read the instructions carefully, as a safety precaution.

New touches bring color to Christmas table

Every day can be a holiday through the Christmas season. A little imagination goes a long way in keeping your family full of that festive spirit . . .

Sprinkle a touch of candied fruit into hot oatmeal for a breakfast treat.

Give your favorite fruit salad that holiday look with a sprinkle of pomegranate seeds.

Cut bells from slices of canned cranberry sauce when serving.

Candy canes make flavorful stirrers in cups of hot cocoa or tea.

Year-round favorite casseroles have a holiday look topped with a cheese star. Place a waxed paper stencil of a Christmas tree over a bowl of potatoes or rice - sprinkle with chopped parsley . . . remove stencil.

Pimento poinsettias make colorful garnishes on any one of many dishes or bordering a filled platter.

Addressing a long list of Christmas cards can really be fun! Gather the family around the table and keep them happily at work with cookies and hot fruit punch!

Ever try pancakes poured onto the griddle in Christmas tree shapes? It takes a steady hand and concentration, but think how they'll delight your family.
